Psych., is the most authoritative book in the field of psychiatric genetics produced in the XXI Century. This text is not only an ideal tool for the busy clinician, but also offers the knowledge required by educators and investigators in the field of psychiatry pharmacogenomics at large".--Pedro Ruiz, MD, President, American Psychiatric Association (2006-2007); President Elect, World Psychiatric Association (2008-2011); and Professor of Psychiatry and Vice Chair for Education, Department of Psychiatry and Behavioral Sciences, University of Texas Medical School at Houston, Texas "In his book on psychiatric pharmacogenomics, Dr. Mrazek distils his scientific wisdom with clinical insights, to produce a unique guide to the theory and practice of this nascent specialty.
