Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1907 Excerpt: .activity of the enclosed solution can only vary as regards the quantity of sugar dissolved in the liquid, and for each percentage of sugar there will be some point on the quartz-wedge where the optical activity of the solution is exactly balanced.by that of the quartz. This point is ascertained by means of the graduated scale attached to the top of the frame in which the wedge is fixed. When the latter is moved by turning the screw (M) different numbers on this scale are brought opposite a fixed pointer; both the pointer and scale being visible through the magnifier (K). The compensator must now be replaced by inserting the proper end of the frame in its guides, and pushing it forward until it can be moved by the screw (M) alone. On no account must force be used either in removing or in replacing the frame. Our next step will be to arrange the polariscope and its lamp on one of the two tables mentioned in Chapter IV, and as it is further necessary to screen the instrument and observer from all other sources of light, some special arrangement is necessary if a dark room be not available close to the laboratory. The table is placed against the wall in a corner of the room, and is screened off by a curtain of dark serge suspended from a rod fixed near the ceiling. This curtain should reach to the floor and be a few feet...
