Brand New Book ***** Print on Demand *****.Excerpt from City Growth Essen Cities are a distinguishing mark of advanced civilizations. There have been careful studies of the political, social and legal aspects of this phenomenon of advanced civilization since the beginning of scientific inquiry; it is passing strange that the study of the economic aspects of the physical structure itself, and of the uses to which its different parts are put, should not have received earlier attention. A promising beginning of this study was made in 1903 with the publication of Principles Of City Land Values, but for many years the study languished. It received a new impulse from the organization of the Institute for Research in Land Economics and Public Utilities in 1920; and in 1923 with the publication of the first edition of the present work, the study came again into the forefront. Doubtless additional necessity for the study was indicated by the conditions prevailing throughout the country at the end of the Great War, when, due to the accumulated congestion and the tendency toward lateral expansion caused by the universal use...
