Not illustrated. 1885 Excerpt: .them--a definition of a change of key--I myself, as was stated, only regard it at present as an experimental definition, showing, however, such a fair promise of accuracy as to make it worth while submitting it to further scrutiny and examination as opportunity offers. But there are two points upon which I do hope I may have succeeded in convincing you; if not, I shall be bitterly disappointed. The one is, that a satisfactory answer to this question of tonality or change of key is the necessary preliminary to any further investigation of the many intricate and interesting problems which music presents to us. The other is that the only method by which these and kindred questions can be satisfactorily treated is the empiric method. Music, as Helmholtz himself says, is a problem which by its very nature belongs to the domain of aesthetics. It is a problem, so to speak, of the heart, not of the head; of the ear, not of the eye. The kingdom of music is within us, not without us, and it is by the careful examination of our own sensations and experiences, rather than by burrowing after roots, or soaring after harmonics, that we can best hope to arrive at a sound method of musical exposition. Our musical sensations are the only witnesses capable of giving evidence on the question; but we must take care that these have not been previously tampered with; they must be permitted to step into...
